

NORTHERN CALIFORNIA

AFFILIATE AWARD

As part of an effort to encourage more young women to choose careers in technology, the Northern California Affiliate Award recognized 11 young women for their outstanding achievements and aspirations in computing and technology. The Award recipients were honored with an awards luncheon, where Winners received trophies and prizes. They were also able to interact and network with members of the community, sponsors, volunteers, and professionals from both industry and academia. The Award was open to any young woman living in northern California, excluding the Bay area. The awards reception was held on campus of the University of California, Davis hosted by Professor Harry Cheng and the UC Davis Center for Integrated Computing and STEM Education. The event was put on with the generous support of key sponsors UC Davis C-STEM Center, UC Davis, Intel, and Dropbox.

***“Because of this Award,
I am sure I would like
to become an Engineer.”***
