

# LOUISIANA

## AFFILIATE AWARD

In its first year, the Louisiana Affiliate Award for Aspirations in Computing recognized ten high school women from across Louisiana for their outstanding achievements and aspirations in computing and technology. These young ladies were honored with an awards reception that included a luncheon, a tour of Tech Pointe on the Louisiana Tech University Enterprise campus, and tours of the College of Engineering and Science and the College of Business. Each Award Winner was seated at a separate table with people from both industry and academia, allowing the young women a chance to interact and network freely. The event was sponsored with generous donations of both time and funds from the Industry Consortium for Innovations in Communications, Information and Cyberspace (IC3). All Award recipients received trophies and prizes, and were able to interact and network with professionals from both industry and academia, including Lucy Sanders, CEO and Co-founder of NCWIT, as well as the Dean and Associate Dean from Louisiana Tech University's College of Engineering and Science and the Associate Dean from the College of Business.

***“ I am very excited that I was chosen to receive this Award. Through writing the small reflections for the application, I was able to see just how lucky I am to attend Saint Joseph’s Academy and have all these opportunities to learn about technology.”***
