

CENTRAL TEXAS

AFFILIATE AWARD

The Central Texas Affiliate Award for Aspirations in Computing recognized the computing accomplishments of young women in central Texas including the Austin and San Antonio Metro areas. These young women were honored at an Awards dinner during which they received accolades and networked with community members, sponsors, volunteers, and professionals from both the industry and the University of Texas at Austin. They were treated to a special screening of the documentary from She++, an organization for innovative women in technology founded by two Stanford female computer science students. The Awards reception was held at the Bill & Melinda Gates Computer Science Complex and Dell Computer Science Hall on campus. In fall of 2013, nine recipients of the Award for Aspirations in Computing will be joining the department of Computer Science at UT-Austin. Each student will receive a \$1,000 scholarship!

"I have recently undergone a grueling college decision and the NCWIT community was there with different girls reaching out to me with knowledge about the prospective schools. Really and truly, the benefit of being an Award Winner does not stop after you get your beautiful glass trophy. There is so much more to be said for the community you gain as a result."
