

EL PASO, TEXAS AND LAS CRUCES, NEW MEXICO AREA

AFFILIATE AWARD

In their 4th year, the El Paso, Texas and Las Cruces, New Mexico Area Affiliate Award for Aspirations in Computing honored 12 Awardees and brought together a community of technical young women who are interested in IT and computer science. The event, held at the University of Texas at El Paso, consisted of a luncheon reception and poster presentations. Over 70 people were in attendance to network with this exciting group of young women, emerging in the computing and technology field. Attendees included computer science and technology professionals, volunteers, community members, parents, educators, and NCWIT representatives. The event was a success in large part due to the time and support of volunteers and sponsors such as the University of Texas at El Paso and New Mexico State University.

“NCWIT has empowered me and given me the courage to explore fields of technology that I would not have otherwise dared to go towards, and for that I am eternally thankful. Thanks to NCWIT I feel more confident as a rising professional in the computing field.”
